

**Igniting
individual
potential,
together**

**Change a life,
change your life.**

Volunteer with Minds Matter

Who helped you become who you are today?

You can help open the door to college for determined students from low-income families — changing the life trajectories for them, their families, and their communities. The core of our program is personalized support, tutoring, and mentorship, setting students up for success in college and beyond.

You can help students chart paths to success through mentorship, tailored programs, and inspiring perspectives on dreaming big.

“It has been an incredible journey serving as a mentor within this exceptional organization. Over the years, I have witnessed firsthand the transformative impact Minds Matter has had on the lives of its mentees. The opportunity to work alongside passionate mentors and support talented students has been immensely fulfilling.”

Erika O.,
Minds Matter Mentor

Why volunteer with us?

- Build long-term, transformative relationships with students and other volunteers
- Nurture and foster your leadership skills
- Join a community of like-minded individuals dedicated to overcoming educational inequities
